# Christmas in the Norwich Churches

The Special Musical Services and Sermons Drew Forth Large Congregations Sunday Morning and Evening.

The spirit of the Christmas season was manifested in the churches of Norwich on Sunday. Both morning and evening large congregations enjoyed the beautiful Christmas music at the various churches and heard the messages that the day brings to mankind. The Episcopal churches and in the Episcopal Christmas day itself will be observed Wednesday by special services.

## At Broadway Congregational.

At the Broadway Congregational church an unusually large Christmas congregation was present on Sunday morning for the special musical service and the appropriate sermon preached by Rev. Edward S. Worcester. The music programme was one of great excellence, and was excellently well carried out, the offertory solo, A Song of Christmas, by Dickinson, being an especially beautiful number as sung by Mrs. Charles Tyler Hard. In Christmas greetings the pulpit, organ and choir left were at their best.

## Rev. Mr. Worcester took for the

Scripture reading the first chapter in the gospel of John and from the first chapter of Hebrews. His text was Matthew 1: 12. "Blessed of the father shall be with child, and shall bring forth a son, and they shall call his name Emmanuel, which is being interpreted, God With Us."

Where is God? What a simple question this sounds and yet how great it really is, what vast concepts it stirs up! It is a searching question which is being asked in the minds of men today, and as the character of the questions vary, just so may the answers be different. And to those who believe in his existence how different are the views as to his nearness and approachableness.

From the old testament the speaker found that three types of answers to this question can be obtained: God is to be found in the works of his own creation. The heavens declared the glory of God and the instrument showed his handiwork. Then He is present in the work of some special providence, in the cloud by day and the pillar of fire by night. And last, God is ever in our inner consciousness, the still small voice in every breast that speaks of duty and of honor. Here then are three great answers.

But God had a still more excellent way of revealing himself to man, and that was in the person of Jesus Christ, who came to earth in the flesh, lived, died, and rose again, and is now seated at the right hand of the Father, waiting to receive his people.

At Bethlehem, a youth grew up in a carpenter shop at Nazareth and a man with few friends went forth into the world and was crucified on the cross. The most significant thing in the life of Jesus was his death and resurrection. The incarnation was his great self-disclosure. God was in Jesus Christ, revealing himself to the whole world. This is the great significance of the Christmas story, for God with us.

## At Park Church.

Park church was handsomely decorated with evergreens. There was a large attendance at both the morning and afternoon services. The Christmas music was especially attractive,
